PROFILE

Full stack engineer with 6 years of experience, the last 3+ years at Florie shipping across a SvelteKit frontend, Nest.js backend, and Flutter mobile. I own features end-to-end in small, remote teams — taking ideas from concept to production in short cycles. Proven at high-stakes integration work (FHIR medical data) and leading technical transitions (Vue → SvelteKit, native → Flutter).

EXPERIENCE

Florie — Software Engineer Nov 2022 – Present
Remote · Europe-based team

- Own features end-to-end across a SvelteKit frontend and Nest.js backend, from concept to production
- Led the migration of native iOS/Android apps to a single Flutter codebase, speeding up release cycles and removing duplicated platform code
- Built FHIR medical integrations with ECW — high-stakes work demanding precise state and data sync
- Drove the web UI migration from Vue to SvelteKit as part of a stack modernization
- Keep the Flutter mobile apps continuously in sync with the core product

Bauer DeutschAkademie — Software Developer Jun 2021 – Nov 2022
Remote

- Built a React.js system for managing course-completion certificates
- Handled WordPress administration and SEO optimization

Solbicon — Software Engineer (Freelance) Jun 2020 – Nov 2020
Cuenca, Ecuador

- Built a real estate portal from the ground up

TangoCode Inc. — Software Engineer Feb 2019 – Mar 2020
Cuenca, Ecuador

- Developed components for a React/Redux web application
- Wrote data-recovery and task-automation scripts; QA automation with Selenium

SIDE PROJECTS

Ganafy.com
Digital loyalty platform for Ecuador SMBs — stamp cards via Apple/Google Wallet. SvelteKit, with RBAC, analytics dashboard, QR validation, and push notifications.

Total WA Ecosystem
